

GWENDA

THERMO-REFLECTIVE INSULATING FILM

Technical Specifications

Composition

81.1% PE – 18.9% Metallised
PET

Width / Thickness

140 cm / 3 mm

Weight

Approx. 180 g/m²
Approx. 7.30 kg per roll

HS Customs Code

3921190099

Packaging

25 m roll (full width)

Origin

Non-EU origin (no Community
certificate)

Reflectivity

95–96%

Thermal
Conductivity

0.034 W/m·K

Water Vapour
Permeability

0.013 g/m²·kPa

Care Instructions

Clean with a damp
sponge.

Applications

Suitable for the
manufacture of
insulated bags and
thermal accessories,
sunshades, and a
wide range of
insulation
applications.

This composite material consists of a layer of air bubble film laminated between two sheets of metallised PET. Its aluminium-finish polyester surface reflects solar radiation, helping to reduce heat transfer and minimise thermal loss.

Mix and Match Textures, Create Your Style

Discover our selection of complementary fabrics, carefully chosen to coordinate perfectly with this product. Combine textures, materials and colours to create elegant, harmonious combinations for all your projects.
